

Dynamic Demand Prediction for Sustainable Bike Sharing Systems

By Alexander Busch and Kaifeng Lu as part of the course project of ECE1724H: Bio-inspired Algorithms for Smart Mobility. Dr. Alaa Khamis, University of Toronto, 2024.

Literature Review

Depth and Breadth of Survey

1. A review on bike-sharing: The factors affecting bike-sharing demand [1] [1]:
2. Data Analysis and Optimization for (Citi)Bike Sharing [2] [2]:
3. Modeling bike-sharing demand using a regression model with spatially varying coefficients [3] [3]:
4. Modeling Bike Availability in a Bike-Sharing System Using Machine Learning [4] [4]:
